- Deepen your self-awareness and embodied sense of Presence.
- Enjoy better and more effective working relationships.
- Resolve even long-standing or repetitive work-place conflicts and irritations.
- Discover what makes a complete and sustainable organisational system.
- Learn about the health of team/organisational cultures.
- Learn specific techniques for insight, problem-solving and getting unstuck.

In this three-day workshop, we'll explore how The Enneagram holds powerful insights for us as individuals, for our relationships, and the organisational systems we are a part of. You'll learn why self-awareness and self-regulation are vital skills for leadership and collaboration. You'll discover simple, powerful patterns that lie at the root of much misunderstanding and conflict at work, and importantly, what to do to resolve them. You'll learn a whole systems approach for viewing your business, team or organisation, which will give clarity on what is needed for resilience and positive change. You'll also learn about the health of team and organisational cultures. You'll discover that the Enneagram can be used as a powerful tool for problem-solving. We will use, simple movement exercises, small group enquiries, open frames, activities and discussions. You can look forward to new ways of understanding your place of work, and practical ideas for change to take back with you.
